Decision impact

THE CHECKPOINT

Pause before the action is finalized.

The investor remains in control.

01

Action

Start with the investor's intended move.

02

Checkpoint

Pause before the action is finalized.

03

Context

Bring the relevant financial picture together.

04

Impact

What changes if I do this?

05

Decision

The investor chooses.

PRODUCT MOMENT

See the impact before you redeem

01 WHY ARE YOU REDEEMING?

Choose the reason

Worried about the market

Need money

Fund underperformance

Goal changed

Found another investment

02 YOUR DECISION

Redemption math

Current investment

₹4,00,000

Redeem

₹1,00,000

Remaining ₹3,00,000 · 25% of
current investment

Redemption impact
Goal impact
Portfolio context
Historical context

AI EXPLANATION

Plain language

Turns structured facts
into an explanation an
investor can
understand.

TRUST BY DESIGN

Built to support decisions — not make them

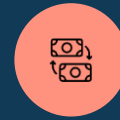

Decision support, not decision replacement.

No buy/sell recommendation

No market prediction

No transaction execution

Historical $\neq$ future

User decides

LIVE DECISORA PROTOTYPE.

TRY IT.

ACT → UNDERSTAND → DECIDE

DECISORA does not make the decision for the investor. It makes the decision easier to understand.

Decisora = decision + clarity/assistant feel.
